SUMMARY

Frontend Developer with hands-on experience building web applications using React, Next.js, JavaScript, and TypeScript. Experienced in authentication, email verification, Row-Level Security, API integration, and building responsive web interfaces.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript
Frontend	HTML, CSS, React, Next.js
Backend / Services	Supabase, REST APIs
Tools	Git, GitHub

PROJECTS

Task Manager

React · JavaScript · Supabase

- Built a task management application with real user accounts and email verification.
- Implemented Row-Level Security to ensure users can access only their own tasks.
- Designed a responsive interface for creating, managing, and tracking tasks.

Expense Tracker

React · JavaScript · Supabase

- Built an expense management application with authenticated user accounts.
- Implemented Row-Level Security to keep each user's spending data private.
- Created an organized interface for recording and managing personal expenses.

News App

Next.js · TypeScript

- Built a responsive news application using Next.js and TypeScript.
- Integrated a news API to fetch and display live articles by category.
- Focused on clean UI, responsive layouts, and efficient data rendering.

EDUCATION

Faculty of Computers and Information — Benha National University

First Year Student

CURRENTLY LEARNING

- Completed a foundational C++ course and currently training in competitive programming (ECPC, ACPC, ICPC).
- Currently taking a SQL course to strengthen database fundamentals.
